

Garmin Nuvi 250W

The Garmin Nuvi 250W is an easy to use, affordable travel companion. Preloaded with maps for North America, this unit can take you anywhere that you need to go, and voice prompts and its large 4.3" screen makes navigation a breeze.

Price: \$299.98

Garmin Nuvi 750

Go beyond basic navigation with Garmin's Nuvi 750.

These units have all the features of the Nuvi 250, and much more. An FM transmitter allows you to play the Nuvi's voice prompts through your car stereo, and built in MP3 and audio book player make travel more enjoyable.

Price: \$499.98

Produced by the Grande Prairie based company SkyBase Geomatic Solutions, PatchMap is the only oilfield mapping software you'll ever need. With wellsites, compressor sites, township and range roads, and much more, PatchMap has all of the information you'll need to navigate the oil patch areas of Alberta and northeastern BC. Be sure to also ask about their BushMap and AgMap products as well.
